# EU RoHS Declaration

*European Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment, as amended or restated periodically, including in Commission Delegated Directive (EU) 2015/863 of 31 March 2015*

**Product Description:** PowerScout FLEX Meters

**Product Number:** PS3FX, PS12FX, PS24FX, PS48FX

DENT Instruments declares that, to its knowledge, as of the date of this document, the product(s) listed above **comply** with the requirements of the RoHS Directive.

The term RoHS Compliant indicates that named product(s) are compliant with the RoHS requirement that the ten restricted substances, when present, are below the specified maximum concentration value by weight in homogeneous materials. Some RoHS-compliant products may contain restricted substances in applications for which exemptions have been granted by the RoHS Directive. If exemptions are required, they are listed below.

RoHS Exemptions	
Exemption ID	Description
6(c)	Copper alloy containing up to 4 % lead by weight
7(a)	Lead in high melting temperature type solders (i.e. lead-based alloys containing 85 % by weight or more lead)
7(c)-I	Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound

This declaration is based on our understanding of the requirements of the RoHS Directive and our knowledge of the materials used in our products. DENT Instruments bases its knowledge on information from third-party suppliers and makes no representation or warranty regarding the accuracy of such information. We continue to take steps to obtain accurate information from suppliers, but have not conducted destructive testing or chemical analysis of incoming materials to verify their composition.

Regards,
